-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-4,9-11,12-13,25-32 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Holland (1756747).

Holland in figure 11 shows a cleat with a retainer 46 and linear spring figure 5 at the end of the capture line 22 the hook is attached to the top of the wing.

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Holland in view of Neilson (15630010).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the two portion pawl 41,36 of Neilson for the single pawl 46 of Holland since it improves the release of the cable.

1. Claims 1,6,12-17,18-21,23-24,25-32 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by McGeer et al (6264140). See figure 8 of McGeer et al.

Art Unit: 3644

3. Claims 22 are rejected under 35 U.S.C. 103(a) as being unpatentable over McGeer et al (6264140) in view of Neilson (15630010).

It would have been obvious to one having ordinary skill in the art at the time the invention was made to substitute the two portion pawl 41,36 of Neilson for the single pawl of McGeer et al (6264140) since it improves the release of the cable.

2.

1. Claim 7-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Holland (1756747).

The forward or rearward sweep of the wings of an aircraft are well known and would be obvious to so do in the case of Holland and would not effect the operation of the capture hook.

Drawings

1. The drawings have been approved.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Galen L Barefoot whose telephone number is 571-272-6898.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Teri Luu can be reached on 571-272-7045.

On July 15, 2005, the Central FAX Number will change to **571-273-8300**. This new Central FAX Number is the result of relocating the Central FAX server to the Office's Alexandria, Virginia campus.

Most facsimile-transmitted patent application related correspondence is required to be sent to the Central FAX Number. To give customers time to adjust to the new Central FAX Number, faxes sent to the old number (703-872-9306) will be routed to the new number until September 15, 2005. After September 15, 2005, the old number will no longer be in service and **571-273-8300** will be the only facsimile number recognized for "centralized delivery".

CENTRALIZED DELIVERY POLICY: For patent related correspondence, hand carry deliveries must be made to the Customer Service Window (now located at the Randolph Building, 401 Dulany Street, Alexandria, VA 22314), and facsimile transmissions must be sent to the Central FAX number, unless an exception applies. For example, if the examiner has rejected claims in a regular U.S. patent application, and the reply to the examiner's Office action is desired to be transmitted by facsimile rather than mailed, the reply must be sent to the Central FAX Number.

Any inquiry of a general nature or relating to the status of this application or proceedings should be directed to **800-786-9199**.
